

## Women's Health Program: Prescription Drugs Available through Pharmacies

Contraception reimbursable through the Vendor Drug Program (applies to prescriptions filled at retail pharmacies)

Contraceptives are the ONLY prescription drugs available through Women's Health Program. This list may not be all inclusive. To search the Medicaid formulary for current coverage of contraceptive methods go to <http://www.hhsc.state.tx.us/HCF/vdp/dw/FormularySearch.asp>. You may search for contraceptives using the national drug code or the brand/generic name of the contraceptive prescribed. Note: This link allows for searches of the entire Medicaid formulary. The Women's Health Program covers ONLY the contraceptives in the formulary, not the entire formulary.
